(Note) Revision of performance forecast during the 1st quarter: None

4. Others

- (1) Significant changes involving subsidiaries during the term: None
- (2) Simplified accounting procedures and unique accounting procedures used in the preparation of and quarterly consolidated financial statements: Yes
- (3) Changes in rules, procedures and method of indication in the accounting procedures relating to the preparation of quarterly consolidated financial statements.

 (Items indicated in the changes to pertinent items relating to the quarterly consolidated financial statement preparation principles)
 - i. Changes resulting from the revision of accounting standards

: None

ii. Changes not relating to i. : None

(4) Number of issued shares (common stock)

i. Number of issued shares at period ends (including treasury stock)

1Q of FY ending March 31, 2012 35,100,000 FY ended March 31, 2011 35,100,000

ii. Number of treasury shares at period end

1Q of FY ending March 31, 2012 1,975,243 FY ended March 31, 2011 1,975,243

iii. Average number of shares during period

1Q of FY ending March 31, 2012 33,124,757 1Q of FY ended March 31, 2011 33,150,325

* Indication of quarterly review procedure implementation status

At the time of disclosure of the financial results, the quarterly financial statement review procedures based upon the Financial Instruments and Exchange Act, have not been completed.

* Advice relating to appropriate use of financial forecasts and other relevant information

The forecasts in this report are based on information available as of the date of release and assumptions considered reasonable. Actual results may differ from forecasts due to a range of factors. For further information regarding the suppositions on which earnings forecasts are based and other relevant information, please refer to page 6 of this document

- Note 2: Engineers who never been assigned to job are excluded.
- Note 3: Engineers who never been assigned to job and engineers on temporary leave (during a period of April 2010 to December 2010) are excluded.

See the Meitec homepage for monthly and quarterly utilization ratio figures: http://www.meitec.co.jp/e/ir/financial/index.htm

Figure 5: Trend of New Contracts(Non-Consolidated)

For the First Quarter ended June 30, 2011 [Meitec alone] *

(1)-1. Consolidated Operating Results

During the first quarter (from April 1, 2011, to June 30, 2011), disrupted supply chains and restricted power supply due to the Great East Japan Earthquake led to a significant decrease in production among leading manufacturers, which are the major customers of the Company. However, their investments in technological development continue to be active on the whole.

Under these circumstances, the Group's core business—temporary engineer staffing—maintained a high utilization ratio, which had been improved during the previous fiscal year, leading to a significant year-on-year gain in operating results. Primarily for this reason, consolidated net sales for the period under review increased ¥1,416 million compared with the same period in the previous fiscal year to ¥15,557 million. The consolidated cost of sales advanced ¥347 million to ¥11,761 million, chiefly due to higher labor costs. Selling, general and administrative expenses went up ¥266 million to ¥2,829 million mainly because of a rise in strategic investments. As a result, consolidated operating income rose ¥803 million to ¥966 million. However, consolidated ordinary income declined ¥25 million to ¥986 million due to a significant decrease in subsidies for the temporary staffing business as a result of the expiry of employment adjustment subsidies. Consolidated net income for the period under review decreased ¥407 million to ¥486 million, reflecting a year-on-year decline in extraordinary income and a climb in tax expenses.

(1)-2. Operating Results by Business Segment

1)-2. i Temporary Staffing

The Temporary Staffing Business accounts for more than 90% of consolidated net sales. Within the temporary engineer staffing, the core business of this segment, the Company's non-consolidated working hours declined from 8.79 hours/day a year earlier to 8.75 hours/day, mostly affected by the Great East Japan Earthquake. The number of completed contracts in April 2011 was higher compared with the same month of the previous year, resulting in a 0.8% decline in the utilization ratio from the fourth quarter of the previous fiscal year. However, the Company achieved a significant improvement in the non-consolidated average utilization ratio from 78.1% a year earlier to 90.0% in the period under review, due to efforts to acquire new customers and to propose customers unassigned engineers, who have in the meantime continued their vocational training, as well as aggressive marketing efforts aimed at existing customers. Mainly for this reason, consolidated net sales in the Temporary Staffing Business segment for the period under review increased ¥1,515 million from a year earlier to ¥14,919 million.

The rise in net sales raised operating income by ¥839 million to ¥933 million.

1)-2. ii Engineering Solutions

In the Engineering Solutions Business, the Company provides engineering services related to analytical technologies, prototype production, casting/metal mold production and technology support for printed-circuit boards.

Consolidated net sales in the Engineering Solutions Business segment for the period under review fell ¥101 million from a year earlier to ¥594 million, and an operating loss of ¥12 million was recorded.

Meitec CAE posted profitability despite a decrease in income due to a reduced number of orders received as a result of the Japanese earthquake and other reasons. Apollo Giken Group recorded an operating loss, reflecting a decrease in orders and provision for bad debt expenses.

1)-2. iii Global

In the Global Business segment, the Company engages in vocational training and job placement in China. In vocational training, efforts were made to optimize the size of staff and facilities for human resource development. As a result, the Global Business segment's operating loss remained at the same level as a year earlier at ¥16 million, despite a ¥13 million decline in consolidated net sales to ¥5 million.

1)-2. iv Recruiting & Placement

Effective from April 1, 2011, this segment was renamed the Recruiting & Placement Business, instead of the Career Support Business. The Recruiting & Placement Business segment involves the job placement and an information portal site business intended for engineers.

Consolidated net sales of the Recruiting & Placement Business segment advanced ¥50 million from a year earlier to ¥153 million, and operating income grew ¥31 million to ¥59 million.

Meitec Next Corporation achieved revenue and profit growth due to a higher number of job openings, reflecting the recovery of market conditions, and increasingly active mid-career employment.

(2) Qualitative Information on the Consolidated Financial Position

[Table 6] Overview of the Consolidated Financial Position

(m	nillions of yen)	1st Q FY ended March 31, 2011	1st Q FY ending March 31, 2012		
		Consolidated Total	Consolidated Total	YoY Amount	% Change
	Total current assets	37,496	34,793	(2,702)	(7.2%)
	Total noncurrent assets	18,053	17,798	(254)	(1.4%)
To	otal assets	55,549	52,591	(2,957)	(5.3%)
	Total current liabilities	9,603	6,918	(2,685)	(28.0%)
	Total noncurrent liabilities	8,603	8,761	+ 157	+1.8%
	Total liabilities	18,207	15,679	(2,528)	(13.9%)
-	Total shareholders' equity	37,993	37,584	(408)	(1.1%)
	Valuation and translation adjustments	(888)	(901)	(13)	_
	Minority interests	237	229	(7)	(3.3%)
	Total net assets	37,342	36,912	(429)	(1.2%)
To	otal liabilities and net assets	55,549	52,591	(2,957)	(5.3%)

(2)-1. Assets

Total assets as of June 30, 2011, declined ¥2,957 million from March 31, 2011, to ¥52,591 million, mainly due to a decrease of ¥2,702 million in current assets from the previous fiscal year-end, reflecting a decrease in cash and cash equivalents.

The primary factors responsible for the decrease in cash and cash equivalents include the payment of bonuses, income taxes payable and year-end dividends for the previous fiscal year.

(2)-2. Liabilities

Total liabilities as of June 30, 2011, decreased ¥2,528 million from March 31, 2011, to ¥15,679 million, primarily due to a decrease of ¥2,685 million in current liabilities from the previous fiscal year-end.

The major factors responsible for the decrease in current liabilities include a decrease in accrued expenses mainly due to the payment of bonuses and a decrease in income taxes payable.

(2)-3. Net Assets

Total net assets as of June 30, 2011, decreased ¥429 million from March 31, 2011, to ¥36,912 million, chiefly due to a decline in retained earnings caused by the payment of year-end dividends for the fiscal year ended March 31, 2011.

(3) Qualitative Information on Consolidated Earnings Forecasts

(3)-1. Earnings Forecasts

Because the consolidated operating results for the period under review were mostly as planned at the beginning of the quarter, the earnings forecasts for the fiscal year ending March 31, 2012, have not been revised.

For details of these forecasts, please refer to the Company's Financial Highlights for the Fiscal Year Ended March 31, 2011, released on May 12, 2011, and the IR presentation materials on the Company's website.

(3)-2. Dividend Forecasts

No revision has been made to the most recent dividend forecasts because the earnings forecasts for the fiscal year have not been revised as mentioned above.

Concerning our basic policy regarding profit distribution, please refer to the Company's Financial Highlights for the Fiscal Year Ended March 31, 2011, released on May 12, 2011, and the IR presentation materials on the Company's website.

Note: Earnings forecasts and other forward-looking statements in this release are based on data currently available to management and certain assumptions that management believes are reasonable. Actual results may therefore differ materially from these statements for various reasons.

Some important factors that might have an effect on business performance pertain to Business Risks stated in the Company's annual securities report and other information already released, but factors influencing business performance are not limited to those released.

2. Matters Concerning Summary Information (Other)

(1) Changes in important subsidiaries during the period under review:

None

(2) Adoption of special accounting treatment for preparing quarterly consolidated financial statements

Computation of tax expenses

After application of tax effect accounting to income before income taxes for the fiscal year ending March 31, 2012, which includes the first quarter under review, we estimate a reasonable tax rate and multiply income before income taxes (cumulative) by that rate.

(3) Changes in accounting policies, estimates and presentation of revision:

None

(Additional Information)

Provision for bonuses

With respect to the payment of bonuses to employees, the provision for bonuses is presented based on estimated payments.

Previously, the amount of bonus payments had been included in accrued expenses. However, a revision to the Company's personnel system has resulted in changes to the method for calculating the amount of bonus payments. As a result, the amount of bonus payments has become an approximation and is therefore presented as the provision for bonuses.
