1. Qualitative Information on the Consolidated Results for the 3rd Quarter Qualitative Information on the Consolidated Operating Results

During the first three quarters of the current fiscal year (the nine months from April 1, 2021 to December 31, 2021), the economic climate was challenging due to intermittent restrictions on economic activities caused by the effect of the novel coronavirus disease (COVID-19). Meanwhile, the future outlook has remained uncertain amid factors that include a surge in cases of new coronavirus variants overseas, despite signs of recovery having emerged after authorities lifted the state of emergency declaration.

The Company's orders have been mounting a recovery amid a situation where investment in technological development looking to the next generation has picked up among leading manufacturers who serve as its major clients.

Under such circumstances, the Company actively engaged in recruitment with an eye on medium- and long-term growth, thereby increasing its number of engineers (total for MT and MF) to 11,260 (up 585, or 5.5% compared to December 31, 2020) as of December 31, 2021, including 764 (MT: 462, MF: 302) new employees joining the Group in April 2021. In addition, the number of engineers assigned to clients increased as assignments proceeded in response to orders. Further, working hours increased year on year due to a rebound in overtime work.

Consolidated net sales for the period under review increased \(\frac{\pmathbf{F}}{7,448}\) million, or 10.4%, from a year earlier to \(\frac{\pmathbf{F}}{8,936}\) million. Consolidated cost of sales increased \(\frac{\pmathbf{F}}{4,618}\) million, or 8.6%, from a year earlier to \(\frac{\pmathbf{F}}{58,079}\) million, due mainly to an increase in labor expenses associated with growth in the number of engineers. Consolidated selling, general and administrative expenses increased \(\frac{\pmathbf{F}}{814}\) million, or 7.8%, from a year earlier to \(\frac{\pmathbf{F}}{11,294}\) million, due mainly to an increase in hiring-related expenses. Consolidated operating profit increased \(\frac{\pmathbf{F}}{2,015}\) million, or 26.7%, from a year earlier to \(\frac{\pmathbf{F}}{9,562}\) million.

Consolidated ordinary profit increased \(\frac{\pma}{2}\),068 million, or 27.2% from a year earlier to \(\frac{\pma}{9}\),667 million. Profit attributable to owners of parent increased \(\frac{\pma}{1}\),475 million, or 29.4% from a year earlier to \(\frac{\pma}{6}\),492 million.
